

June 2011

Dear Pastor,

For many years NorthStar Church Network has had a partnering relationship with Brotherhood Mutual Insurance Company which set up a Group in which member churches could participate. As part of the Group, churches experience better consideration from the Insurance Underwriter, which can lead to premium credits based on the overall picture of the church. Additionally, the Network benefits from a rebate dividend in years when participating churches have a good ratio of premiums volume to claims.

In the past there have been years when the rebate dividend was fairly significant and contributed to various ministries in the Network. Having additional churches in the Group will increase the probability of future rebates that can be used to further the ministries of your Network of Churches.

If your church is considering an audit of your current insurance needs, I would recommend checking with Brotherhood Mutual. Tina Crawford, Vice President Property & Casualty Division, will be happy to set up a consultation for you. She can be reached at (703) 777-6500 x14.

And please do not hesitate to contact me if you have any questions.

Sincerely Yours,

Stephen R. Welch  
Executive Director
